POSSIBLE CHARGE CARD FRAUD

We have received reports within the financial community of possible charge card fraud involving companies proprotting to drop interst rates on your credit cards and other consumer loans for a fee . We have heard the fees range from \$500.00 up to \$1295.00! Individuals are contacted by phone (including cell phones) and with the lure of getting their rates dropped give vital credit card account information, security codes, checking account numbers even social security numbers! The individual gets fleeced and no rate reductions as promised. Be wary of companies making these sort of promises, NEVER give any of your personal or financial information to someone you do not know. We will update this alert as more information becomes available.
